#### Faith That Is A Million Times Stronger Than All Atomic and Hydrogen Bombs

Than All Atomic and Hydrogen Bombs

Writers today speak of a deadening fear that is creeping into the souls of men around the world because of the recent born in India in 568 B.C., was hydrogen bomb test explosions in the Pacific brought over to Japan in the 6th atolls. It begins to appear that a faith that is stronger than bombs is the greatest need of the age.

Do not the Scriptures speak of times to come when men's hearts shall fail them for fear of things that are happening in Japan, who belong to over ten

An after-glow of the Easter joy would seem to furnish the needed divine assurances without which fears today will grip every human heart. "He is risen"; "He lives who once Buddhist adherents in Japan. live on, alive and real and deep in the soul, or else Easter is of little avail for peace and security.

Easter songs, Easter scripture readings, Easter reverance and worship—somehow mankind must continue to keep these alive in men's hearts from one Easter until the next Easter.

How may this be done? Plainly it is a personal, private concern. We have the songs to sing over and over, again and again, aloud, or silently in our hearts and memories. We have the bedsides where the knees may bend in reverent worship, prayer and thanksgiving. We have the scripture in our homes to open daily and read the precious word. Consider just one passage from modern Holy Writ:

"The veil was taken from our minds, and the eyes of our understanding opened.

"Butsudan" (Buddha-stand) and is complicated and very decomplicated and very decompliance and the service. A Buddhist family altar is called "Butsudan" (Buddha-stand) and is complicated and very decompliance and the service and service. A Buddhist priest protection almost and the service. The after-Easter spirit must continue until next Easter. Faith and hope for just one day is not enough.
